

COUNTY AND CITY TO BUILD DYKES TO CONTROL FLOODS

For the protection of Phoenix and the farm lands adjacent to the river, the county and city will start clearing the river shortly preparatory to building dykes for flood control. It is impossible to estimate the loss to the county and individuals caused by the floods. The damage to the county bridge and causeway by last winter's flood alone, cost the county \$1000. The improvement will be made as soon as the owners of the land on the river bottom grant the county and city permission to remove the brush and timber from their property.

It is hoped that an agreement between the ranchers and engineers representing the county and city will be reached at once that the dykes might be completed before the late November rains. If the floods are to be controlled it would be advisable for the ranch owners to get together, many of whom have already signified their willingness to co-operate with those who have the movement in charge.

The clearing will extend from Central avenue two and one-half miles on the east and one-half mile on the west and dykes will be built wherever necessary. Work will be begun on the extreme east as soon as the agreement is reached.

County Engineer Harold Bargman

and City Engineer J. B. Girard have been figuring for some time on protection to the city and ranchers. Three months ago the river was surveyed with just such a plan as has been decided upon in view. That it will be carried out they feel confident, since many of the ranchers have already expressed themselves well pleased with the idea. When the final agreements are signed, a force of men sufficient to carry on the work in the allotted time, will be employed.

Every winter for years, great damage has been caused by the flood waters. Both last year and the preceding winter, Riverside park was partially destroyed while the losses to smaller property owners was felt even more keenly.

The homes of many were completely wiped out and a force of men was stationed along the river front for days when lives were in danger. The local charities cared for hundreds who had never before found it necessary to accept aid. That the news of the flood protection will be received with general relief throughout the county, is the opinion of Engineer Bargman, who believes the actual welfare of the community is concerned. His opinion is shared by all who have heard the plans and are hopeful that the measures suggested, will soon be carried into effect.

A FEW GOOD HINTS FROM KORRICKS' FURNISHINGS SECTION

Emery Shirts

New fall patterns in a large assortment of neat striped effects in madras, percales, etc., priced from **\$1.00 TO \$2.50**

Union Suits

Sweater Coats

A complete assortment of Men's Sweater Coats, in plain grey, navy, brown, cardinal, also fancy collar and cuff priced from

\$3.50 to \$8.50

BORDERLAND BOOSTERS TAKE UP DOUGLAS-PHOENIX RACE

According to latest reports, interest in the Douglas-Phoenix road race is growing amazingly along the Borderland highway. Within the week, the announcement of the promoters, and the entry blanks, carrying the number of the A. A. A. sanction will be printed and ready for distribution. About thirty tentative entries have been lined up.

At the coming fair, the automobile traffic will be directed on Grand avenue, and other routes leading from the

business district to the fair grounds will be kept for the exclusive use of horse drawn vehicles.

This is a change from all previous years. It has been found that 90 per cent of the state fair patrons go from the city to the grounds in motor cars. Saturday, November 18th, will be given over to automobile racing exclusively, and the main feature will be the one hundred mile free-for-all track race for cars and drivers of Arizona, New Mexico, and Texas under sanction of the A. A. A. A purse of \$2000 has been hung up to be split first \$1000, second \$600, third \$200 and fourth \$100.

This is the opportunity that the drivers and automobile fans of the southwest have been waiting for years. The fact that Barney Oldfield, Earl Cooper and other professional exhibition drivers have raced at the state fair in the past and run away with all the money has had a tendency to discourage the drivers and car owners of Arizona. The state fair commission this year decided to confine these events to the southwest and distribute this money among local drivers, from whence it will find its way into the regular channels of business, and besides keeping the money which is annually spent on automobile racing at home will no doubt provide more interesting sport than has ever been staged heretofore. The local interest which will attach to a car from any given community in the state will in the estimation of the state fair management more than offset the drawing power of drivers of the Barney Oldfield type.

In addition to the above race the fair commission have made application to the A. A. A. for sanction for a road race from Douglas to Phoenix for Monday, November 13th, the opening day of the fair. A purse of \$1250 is offered for this event, divided, \$600, \$450 and \$200.

All cars entering in the road race will be expected to enter for the track events and will no doubt take a chance at both purses.

The road race is already creating considerable interest in automobile circles in Douglas, Phoenix and intervening towns. It will be a splendid advertisement for the Borderland highway, as well as furnishing some excitement for the residents along the route.

A five-mile elimination contest will be run immediately preceding the one hundred mile track race on Saturday, and a \$100 silver trophy is offered for the car "named for entry" by any city or town in Arizona making the best time. Competition for this cup is limited to cars entered in the name of some city in Arizona, and in addition

Superior Merchandise

YOU cannot get away from merchandise in the consideration of a store. All standards of service, value giving and satisfaction fail if the goods are not good, if the merchandise is not better at a given price than the public can find elsewhere.

Our search for superiority is never ending, and we have not found during our long experience any merchandise which equals in point of value that which we offer in

Kuppenheimer Clothes

at the easy-to-pay prices

\$20 to \$25

This store is the result of greater-value-giving in these clothes at these prices. Phoenix has always maintained the best the land affords. Phoenix has never stooped to purchase inferiority at any price, and yet the men of this city are both value hunters and greater value-getters.

We claim superiority for our merchandise. We claim to sell better suits at a given price than anyone else anywhere. We claim that service in this store is as nearly perfect as human intelligence and effort can make it.

We take the position that with our regular models, our special styles for the stout, slim or tall, our Half Sizes and Forewards, all by The House of Kuppenheimer Korricks are entitled to your patronage because we have so provided for your comfort and satisfaction as to deserve it.

GENERAL CARRANZA SHOWS STUDENTS HOW TO SHOOT VILLISTAS

General Carranza demonstrating to students how to use the rifle.

First Chief Carranza wants all the Mexican students to know how to handle a rifle, so he has instituted rifle practice in the National Preparatory school in Mexico City, and other schools. He attended the first practice shoot and showed the students that he is no slouch with the rifle himself.

there will be a cash prize of \$150 for the driver of the car winning the cup.

A series of novelty races by Ford cars will constitute an amusing part of the afternoon's program and will be of interest to the thousands of Ford owners in the state. These events are limited to stripped down Ford machines owned in Arizona, New Mexico and Texas and driven by drivers from these states. A purse of \$250 is offered for these events, and there will undoubtedly be a deluge of entries.

MEXICAN SEIZE SCHOONER

[Republican A. P. Leased Wire] SAN DIEGO, Cal., Oct. 6.—Seizure of the American fishing schooner Cover d'Aleone of this port on the high seas off Ensenada, Mexico, by the Mexican patrol boat Ensenada, and the arrest of Captain Henry Krotzer and his American crew on a charge of poaching within the territorial waters of Lower California, was reported here today by passengers arriving from the south on the British vessel Gryme.

Captain Krotzer, it is said, protested against the seizure, claiming his ship was outside the three-mile limit.

Hire a little salesman at The Republican office. A Want Ad will see more customers than you can.

BONE GAINS 4 VOTES; COUNT 17 PRECINCTS

In the count on seventeen contested precincts by inspectors yesterday and last night, J. T. Bone, democratic nominee for county assessor, made a net gain of 4 votes over his opponent, T. M. Burroughs. His previous majority of 12 was raised to 16.

The count was very slow and painstaking, and but few errors were found, as indicated by the slight change in the results.

The contested precincts were: Phoenix 3, 4, 9, 10, 13, Tempe 2, 3, 4, 5, 6, 7, 8, 11, 12, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

The inspectors were Fred Blair Townsend, W. J. Burns and J. C. Niles. Mr. Niles and Struckmeyer & Jenckes represented the contestee, J. T. Bone, and Thomas W. Nealon and Steven McIntyre the contestant who favored T. M. Burroughs' election.

Mr. Struckmeyer raised no objection when the matter first came up for the contest proceedings to be carried on at once. He stated that the canvass was correct, but that if Mr. Burroughs received the majority of votes cast he should be the democratic nominee for assessor.

The contest for the democratic nomination of county attorney is not

advancing at the same clipper speed. Mr. Laney, the contestee, will ask for further time, arguing a motion to that effect today.

HUGHES ALLIANCE MISSOURI AND IOWA

(Special to The Republican)

NEW YORK, Oct. 6.—James Wilson, secretary of agriculture in the McKinley, Roosevelt and Taft administrations, has been elected president of the national Hughes alliance branch in Iowa. It was announced today, (Thursday). Among the vice presidents of the Iowa organization are Howard Clark, Casper Schenk, both of Des Moines; C. R. Branton, Dallas, Center; George White, Nevada; Judge Atlee, Ames; R. E. Hales, Des Moines, is secretary and Gilger Mackimmon, also of Des Moines, treasurer. This list containing the names of former progressive like Mr. White and Mr. Schenk, shows how the old division in Iowa has been healed, and how both sides are together in support of Hughes.

A Missouri branch of the alliance has been formed with Dwight F. Davis as president, Forrest Donnell, secretary, and David R. Calhoun,
